TALEMA Assembly Stands for TRT Toroidal Transformers

Part Nr.	Part description
FMS500	Mounting Set for TRT500
FMS1000	Mounting Set for TRT1000

Selection Table

Assembly Stand	Suitable for Transformer
FMS500	TRT500_
FMS1000	TRT1000_

Note

When assembling, the length of the spacer pin should be adapted to the height of the toroidal transformer. The provided spacer rings can be used for this. When assembled, the flanges should rest upon the front surface of the spaced pins (with spacer ring) without bending considerably, whereby the transformer is crimped and held by the neoprene pads on the inside.

Terms of Delivery

Minimum order quantity: 1 PKU = 1 piece
